# PARTICIPANTS & ELIGIBILITY

At International MUN Conferences, we welcome everyone with a passion for learning, debating, and global issues. While most participants are school and university students, our conferences are also joined by young professionals, teachers, advisors, and observers from around the world. On average, 300–350 delegates from diverse countries attend each conference.

IMUN has no age restriction — because we believe diplomacy and debate depend more on experience and perspective than on age. Everyone, regardless of background, is capable of learning, contributing, and making a difference. To ensure every participant has a meaningful experience, delegates are placed according to their MUN background:

- School Committees – for high school delegates
- Beginner Committees – for those new to MUN
- Intermediate Committees – for delegates with some prior experience
- Advanced Committees – for experienced MUN participants ready for challenging debates

This system makes **IMUN** inclusive and beginner-friendly, while also offering **high-level debates** for advanced delegates. Together, this diversity enriches discussions, builds confidence, and fosters lifelong friendships across cultures.
